

start communicating

features

- The most secure of the automated conferences
- ConferenceAnytime™ subscribers can utilize this reserved service when they feel the need for the additional security which ConferencePasscode provides
- ConferencePasscode can be integrated with web conferencing services to enhance your meeting's productivity

ConferencePasscode™

ConferencePasscode™ provides increased security with the convenience of a self-service conference. When you make your reservation for the ConferencePasscode service, you will be issued a passcode that pertains to this one call event. No one can reuse this security information.

ConferencePasscode is ideal for automated conference calls where you feel additional security is warranted. When speaking privately to a client or working on a confidential project with a work team, ConferencePasscode gives you the peace of mind that your call is absolutely secure.

Any WebPlus™ conferencing service can be integrated with ConferencePasscode calls. The integration of audio and web conferencing tools into a single meeting allows for a most productive event – the power of the web combined with the passion of the voice.

Each WebPlus service includes a menu of presentation and/or collaborative tools that will enable you to best illustrate a new product concept or resolve an outstanding business issue. Whether you are giving a formal presentation to an audience of hundreds or brainstorming with a tight-knit group of colleagues, there is a web conferencing option right for you.

ConferencePasscode

simplify

ConferencePlus believes that conferencing should not only change the way you do business – it should improve your business processes by increasing productivity and simplifying your business day. We are dedicated to making you and your organization look good by providing audio, web and videoconferencing services that help you maximize every meeting opportunity – anywhere, at any time. Our goal is to ensure that each event is a productive, positive, “no surprises” experience.
